Languages	JavaScript ES6+, TypeScript, HTML, CSS, PostgreSQL
Technologies	React, Node.js, MongoDB, Express.js, 3JS, Mongoose, Sequelize, Apollo, GraphQL, Handlebars, Material UI, Bootstrap, Tailwind,
Other	Git, RESTful APIs, Netlify, Render, Insomnia, Figma, Agile Methodologies, OOP, MVC, npm, JWT, jQuery, Vite, Webpack,Chrome developer tools

PROJECTS

Pantry.JS   https://github.com/LemonTag/Pantry.js   https://pantry-js.onrender.com/

- **Summary:** A full-stack app that allows users to take stock of ingredients they have at home, select which ingredients they would want for a potential dish, and select different recipes for inspiration to cook.
- **Responsibility:** Built back end logic to handle data storage and schemas, resolutions through express and GraphQL, aided in design and structure of front end using Material UI.
- **Technologies used:** MongoDB, Express, React, Node, Mongoose, Apollo/GraphQL, JWT, MUI

Venue Voyager   https://github.com/P5YC0DR3AM3R/venueVoyager

- **Summary:** Full-stack stadium tracker app, users can look through a database of different stadiums
- **Responsibility:** End to End development, collaborated with other developers to design and implement a relational database and MVC structure, built models and API endpoints to read and manipulate data from the database. Built reusable views with HandleBarsJS that were populated with data from the database.
- **Technologies used:** PostgreSQL, Sequelize ORM, Express, Handlebars, Node,

FitMon   https://github.com/Alexer333/BeatBody-Team-Project

- **Summary:** A front end web app that allows users to find different workouts and collect different Pokemon sprites upon completion of their workout.
- **Responsibility:** Team- Lead, UX/UI Design, parsing the JSON data received from PokeAPI to dynamically populate the webpages with DOM manipulation.
- **Technologies used:** 3rd party APIs, Foundation

EMPLOYMENT

07/2018 - 03/2024   Henry County Fire Rescue · Firefighter/AEMT· *McDonough*, *G*A

- Delivered exceptional customer service to patients and community members, ensuring their utmost satisfaction
- Demonstrated exceptional composure and executed effective responses during high-pressure situations
